To: Whom so ever it may concern

I take immense pleasure to recommend Ms. Prithvika K. into your prestigious institute to do an internship under your guidance. I know her for past two years and I have been her instructor for the course "Immunology". She is well mannered, regular and attentive and has consistent academic records. She has exposure to different microbiology techniques by completing a three month clinical microbiology laboratory course in addition to her regular microbiology lab course. She makes use of her time in updating her knowledge by attending different conferences and workshops. Besides academics, she is also engaged in sports and organizing committees.

Prithvika is a confident individual who can adjust herself well with her surroundings. She has shown a good command on her English. She believes in being down to earth and respects her faculty members and higher officials. She is always in good terms with her peers.

Keeping her academics and other achievements in mind, I strongly recommend her for an internship program under your guidance.
