Venue : Auditorium, Sree Balaji Medical College & Hospital
Chromepet, Chennai, Tamilnadu, India

“The beauty of a face is not a separate quality but a relation or proportion of qualities to each other “

– George Herbert Mead

Orthognathic surgery is a sub-speciality of Oral & Maxillofacial surgery which creates the desired aesthetic proportions and balance of an ideal face. Today its application extends beyond achieving a beautiful face, to addressing functional problems related to occlusion, temporomandibular joint and obstructive sleep apnoea.

Welcome on board to attend a unique live clinical course, that enables OMFS trainees to obtain clinical training in Orthognathic surgery, Cleft lip and palate. This live surgical 2-day workshop, covers a wide range of advanced Oral and maxillofacial surgery laying a platform for interaction with experts. The participants will have strong hands-on learning experience that empower them to incorporate these skills in OMFS daily practice.

Program Highlights

- 2-day program on principles & practice of orthognathic surgery
- Lectures by eminent surgeons on techniques with practical tips
- Hands-on training with models (limited attendance)
- Live surgeries
